**Charles-Edouard Jeanneret
(1887-1965)**

Born in La-Chaux-de-Fonds, Le Corbusier worked under his real name, Charles-Eduard Jeanneret until the early 1920's. A founding member of the UAM, Le Corbusier is often portrayed as representing the antithesis of Art Deco (his pavilion was marginalized at the 1925 exhibition), yet his work before 1920 and the influence of the Modernist aesthetic on the development of Art Deco in both Europe and America from the late 1920's make him an important figure in the history of style.
